Mr. Melvin Spaulding
Consolidated Grain - Soybean Oil Extract
P. O. Box 548
Mount Vernon, IN 47620

Re: **129-16161-00035**
First Administrative Amendment to
Part 70 129-10111-00035

Dear Mr. Spaulding:

Consolidated Grain - Soybean Oil Extract was issued a permit on February 20, 2001 for a soybean oil extraction plant. A letter requesting a modification to their existing evaporators that exhaust to Stack 13, was received on June 28, 2002. Pursuant to the provisions of 2-7-11 the permit is hereby administratively amended as follows:

Consolidated Grain has submitted an application to replace the heat recovery device of the evaporators that control the hexane emissions of mineral oil absorber system C13. The proposed heat recovery device does not generate any regulated air pollutant emissions, affect the capacity or emissions of the associated evaporators, and does not affect the capacity or emissions of any other emission units. Thus, there will be no increases in emissions due to the proposed change.

Further, no changes to the permit are necessary due to the fact that the unit descriptions of the affected units (the evaporators) do not list the heat recovery device, there are no existing applicable requirements that need to be changed, and no new applicable requirements are triggered.

All other conditions of the permit shall remain unchanged and in effect. Please attach a copy of this amendment and the following revised permit pages to the front of the original permit.

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Scott Fulton, at (800) 451-6027, press 0 and ask for Scott Fulton or extension (3-5691), or dial (317) 233-5691.

Sincerely,
